The Business Constituency (BC) endorses the recommendations made by the IRTP-B Working Group and encourages ICANN Board members to vote in favor of the motion as drafted.

If Board members have issues which prevent them from supporting the motion, the BC urges the Board refer the issue back to the GNSO Council which can ask the IRTP-B working group to review the Board's feedback, and perhaps modify recommendations where appropriate.

This document was reviewed and approved by BC members in accordance with our charter.
